

Environmental Commitments – Example

Florida Green Lodge each lodging facility goes through a step-by-step process set up by the Florida Department of Environmental Protection (DEP) and Florida Green Lodging Program.

Florida *Clean Marina* Programs are designed to bring awareness to marine facilities and boaters regarding environmentally friendly practices intended to protect and preserve Florida's natural environment. Marinas, boatyards and marine retailers receive "clean" designations by demonstrating a commitment implementing and maintaining a host of best management practices

Additional Designations

Additional environmental designations may enhance the marketing position of waterfront properties. There are number of national (and international) programs which, by involvement, will help develop funding opportunities. Examples follow:

Free programs sponsored by the U.S. Environmental Protections Agency

EPA program with a clean water and water conservation focus

EPA program with waste management focus.

U.S. Green Building Council (USGBC) - green building resources

International
Organization for
Standardization

International Organization for Standardization (ISO) – programs for manufacturing quality control and environmental management.
